## OUR POLICIES

### PURE ESSENCE 24 HOUR CANCELLATION POLICY

Your appointments are very important to Pure Essence, the room and therapist is reserved especially for you. We understand lives can get busy; therefore, we respectfully request 24 hours' notice for cancellation or re-scheduling of a booking.

Please understand that when you adjust, forget or cancel your appointment without giving sufficient notice, clients on our waiting list will miss the opportunity to receive services.

Our appointments are confirmed 48 hours in advance because we know how easy it is to forget an appointment you may have booked months ago. Since the room and therapist is reserved for you personally, failure to provide 24 hours' notice for cancellation or re-scheduling will result in a no show fee.

- Less than 24 hours' notice will result in a charge equal to 50% of the reserved service amount.
- 'No shows' will be charged 50% off the reserved serviced amount.
- Less than 24 hours' notice or no shows for appointments using gift vouchers, your gift voucher will be voided (*as stated on gift voucher*).
- Adjusting your appointment at the time of the appointment is considered a cancellation of your service and we reserve the right to request the cancellation fee pursuant to our terms.
- For appointments made within the 24 hour period, the client must cancel within 4 hours' of the appointment time or this will result in a charge equal to 50% of the reserved service amount.

The cancellation policy allows us the time to inform our wait list clients of any availability, as well as keeping our scheduled filled, thus better servicing everyone.

Here at Pure Essence, we pride ourselves on the best quality performance for our present and future clientele. Thank you for viewing and supporting our policies criteria.

## PERFORMANCE FACIALS

### LED LIGHT THERAPY

LED is a scientifically and clinically proven, completely painless (non-laser) light source that allows you to achieve healthier, plumper looking skin using multiple wavelengths of light.

Treatments help to improve elasticity, skin tone and texture, and firmness while decreasing hypersensitivity and tenderness. Working to counterbalance the thinning of tissue and improve skin density, Dermalux LED phototherapy also has the ability to speed up recovery time and improve immunity and reparation - providing the skin supplementary vascular activity. We recommend light therapy in combination with any facial to maximise results, or as a course.

Express LED Light Therapy Facial 45 min	\$109
Ultimate LED Light Therapy Facial 60 min	\$139
LED Light Therapy 30 min addon to any service	\$59

### HYDRODERMABRASION

With our next generation of microdermabrasion, we combine diamond tip exfoliation, liquid exfoliation, skin cooling and skin hydration, for an immediately visible improvement to your skin with no downtime.

After gently buffing away dead skin cells using the diamond exfoliation tip, this advanced treatment simultaneously cools and infuses your skin with advanced solutions matched to your skins needs, resolving skin issues such as dryness, dullness, congestion, fine lines, acne, hyper-pigmentation and excess oil - from your very first treatment.

More gentle than the conventional microdermabrasion, Hydro-dermabrasion is a non-irritating treatment with clearly visible and immediate results.

## PERFORMANCE PLUS FACIALS

### DERMAPEN 4 SKIN NEEDLING

Dermapen microneedling is a sought-after skin renewal procedure that treats a wide range of conditions. Unlike injectable treatments, Dermapen microneedling is an entirely natural process that stimulates the body's own repair and renewal process to create collagen. Micro-fine needles are adjusted to different depths and speeds to create fractional puncture channels on the surface of the skin. These micro-channels carry your meso-glide (a serum that's chosen to help correct your specific skin concern) deep into the skin, increasing its effectiveness and delivering healing nutrients.

The superior absorption of Meso-Glides combined with a natural boost in collagen and elastin results in plumper, younger-looking skin.

Facial needling with Dermapen helps get rid of unwanted lines and wrinkles and other blemishes, but you can also treat different parts of your body. Hands, neck and décolleté are all popular zones, but you can treat anywhere you feel needs a boost of collagen to repair thinning, sagging, sun-damaged or problematic skin.

Dermapen microneedling can help reduce the appearance of:

Ageing, fine lines & wrinkles, active acne or acne scars, pigmentation, melasma, scars, enlarged pores, rosacea, hair loss, and stretch marks. For any other body scarring and stretch marks, please enquire by talking to a therapist in salon.

Full face, neck and décolletage	\$279
Full face only	\$199
C-Section scar	\$179

A woman with blonde hair tied back, wearing a black short-sleeved top and a large, artistic earring, is performing a facial treatment on a client. The client is lying on a massage table covered with a white towel, with her eyes closed and a white headband on her head. The woman is leaning over the client, with her hands gently touching the client's face. In the background, there is a white table with various beauty products and a white box with a logo.

“A girl should be two things; classy and fabulous.”
